**The only way  
to get the changes  
you want**

**VOTE WOOD FOR MAYOR**

**Thursday 4th June 2009** Your **First** and **Second** choice for Mayor of Doncaster

1st Choice 2nd Choice

# Listening to your needs...

The list of your concerns is a familiar one and while talking about them is important, only by using your vote wisely in June will action on these issues be addressed.

**Litter everywhere**

**Inappropriate development**

**Not enough bobbies on the beat**

**Dangerous roads**

**Not enough spaces**

**Neglected highways**

**Poorly considered transport**

**Inadequate flood protection**

# Why is your vote so important?

If you think your vote won't make a difference, **think again!**

The collective votes are Borough-wide, **not** Ward-based.

Last year we were only 3500 votes short of making **the** changes **you** desperately need!

## Together we can change Doncaster for the better

- Better transport links and parking to attract employers and encourage a vibrant town centre.
- A receptive ear to local business. Supporting the provision of meaningful skills that ready people for employment.

### A Council we can all be proud of

- Council employees valued, supported and well-led.
- Paralysis and in-fighting ended via collaborative leadership style.
- Common sense - employees and stakeholders free to suggest new ideas and solutions, unfettered by unnecessary paperwork.

# Delivering the difference

- I'll end the in-fighting by drawing a line under the previous administration. I am committed to a collaborative style of leadership informed by my experience as a diplomat.
- I believe in an **open cabinet** filled with the best people to deliver for the town. People from outside of my Party will have an opportunity to join my cabinet.
- I welcome anyone to join me in the best opportunity for a fresh beginning in Doncaster for generations.

**Remember** without your vote we can't make the changes **you** and Doncaster really need.
